Product description:

Dometic GVTX18 self-contained air conditioning system 6,000 - 18,000 BTU/h

Dometic GVTX18: Your air-conditioned comfort at sea

The Dometic GVTX18 is a powerful, self-contained air conditioning system specifically designed to provide a cool and comfortable environment on board a vessel. With a cooling capacity of between 6,000 and 18,000 BTU/h, this air conditioner is the ideal solution for cooling medium to large rooms, such as lounges, cabins and kitchens on sailboats, yachts and motorhomes.

Key features:

Flexibility: Works with both 115V and 230V voltages and 50 or 60 Hz frequencies, adapting to different electrical configurations.

Power: Thanks to its high cooling capacity, it can cool even the largest rooms quickly.

Efficiency: The variable-capacity compressor guarantees optimised energy consumption, adapting power to the required heat load.

Quietness: The design and materials used ensure quiet operation, for acoustic comfort on board.

Robustness: Built to withstand marine conditions, with high-quality materials.

Ease of installation: The compact design and simple installation make it suitable for various types

of vessels.

Key technical features Dometic GVTX18:

Acoustic coverage as standard

Ultra quiet night operation

High speed rotary blower

Large air distribution and installation flexibility

Titanium condenser coil

Robust design ensures reliable performance

Robust and elegant

With composite positive flow condensate tray

Variable capacity compressor

Adapts to the demand for extreme energy efficiency

Technical Specifications Dometic GVTX18:

Voltage: 100-240 V

Frequency: 50/60 Hz

MIN. input capacity: 200

Full capacity Input power: 1253

Max. Automatic breaker 115 V: 20 (A)

Max. circuit breaker Automatic 230 V: 10 (A)

Refrigerant Type: R454B

Capacity (BTU): .6000-18,000 BTU/h

Dimensions: 345.4 x 553.7 x 337.8

Gross weight: 28kg

Net weight: 23kg

Refrigerant: R454B

Product features:

Frequency (Hz): 50/60

Voltage (V): 100 - 240

Gross weight (Kg): 28

Coolant: R454B

Min. capacità d'ingresso: 200

Piena capacità Potenza d'ingresso: 1256

Max. Interruttore Automatico: 230 V - 10 (A)

Dimensions [mm]: 345.4 x 553.7 x 337.8

peso netto: 23
