

TELECO Ultra Comfort 6000 Camper-Van Air Conditioner 6,000BTU/H

Product description:

TELECO Ultra Comfort 6000 Camper-Van Air Conditioner 6,000BTU/H

Teleco Ultra Comfort 6000 - The air conditioner that revolutionises your motorhome

Enjoy coolness wherever you go, without sacrificing space and comfort.

The Teleco Ultra Comfort 6000 is an innovative air conditioner designed especially for camper vans, offering you a completely new travel experience. Thanks to its comfort design and installation in the engine compartment, it frees up roof space and allows you to enjoy an unobstructed panoramic view.

Why choose *Teleco* ?

Freedom of movement: The folding roof is no longer a limitation. Install the air conditioner without giving up your freedom to explore.

Maximum comfort: Enjoy a cool and pleasant environment, even on the hottest days.

Quiet operation: The outdoor unit, located in the engine compartment, ensures extremely quiet operation.

Ease of use: Remote control and app allow you to control the on-board climate in a simple and intuitive way.

Flexibility: It works as both an air conditioner and heater, for optimal comfort in every season.

Teleco - Comfort design: Frees up roof space and enhances the aesthetics of your motorhome.
