MCH H780-GXE TRACKED MOTOR CARRIER 800KG

MCH H780-GXE TRACKED MOTOR CARRIER 800KG: The Power and Versatility You're Looking For

The MCH H780-GXE TRACKED MOTOR CARRIER 800KG is a robust and reliable machine designed to tackle the most demanding challenges in various sectors. With a load capacity of 800 kg and a Honda GX390 engine, this tracked motor carrier offers high performance and great versatility.

Main Features:

Self-loading Shovel: The integrated self-loading shovel simplifies loading and unloading operations, increasing efficiency and reducing work times.

Spacious Dumper: The 0.32 m³ dumper offers a generous load capacity, ideal for transporting various types of materials.

Upper Dumper Protection: The upper dumper protection prevents accidental falling of the transported material, ensuring greater safety during use.

Fender: The fenders protect the operator and the machine from mud and debris, maintaining cleanliness and prolonging durability.

Track Tensioning System: The track tensioning system ensures optimal traction and greater track life.

Foldable Operator Platform: The foldable operator platform offers a comfortable workspace and facilitates transport of the machine.

Tilting Roller System: The tilting roller system allows you to easily overcome obstacles and uneven terrain, ensuring greater maneuverability.

Lifting Hooks: The integrated lifting hooks facilitate transport and movement of the motor carrier on site.

Powerful Engine: The Honda GX390 engine offers high performance and reliability, ensuring constant operation even in difficult conditions.

Technical features:

Model: MCH H780-GXE

Type: Tracked motor carrier

Maximum load capacity: 800 kg

Engine: Honda GX390

Fuel: gasoline
