## Product description:

### GREEN POWER GP110S-G NATURAL GAS 108KVA

The GREEN POWER GP110S-G Natural Gas 108KVA is a power generator designed to ensure maximum efficiency and reliability for industrial, commercial, and residential applications. Thanks to its powerful GM POWERTRAIN RMG8800 (PSI) engine, this generator delivers excellent performance with a maximum power of 108 KVA and stable operation at 400/230V.

### Main Features of the GREEN POWER GP110S-G Natural Gas 108KVA:

**High Power Output:** The GREEN POWER GP110S-G Natural Gas 108KVA provides 105 kVA in PRP mode and 115 kVA in LTP mode, ensuring continuous and secure energy support.

**Powerful Engine:** Equipped with an 8-cylinder 8800 cc engine, featuring an electronic speed regulator for optimal performance control.

**Fuel Efficiency:** Specific consumption of 34.3 L/h at 75% load, ensuring high operational autonomy.

**Advanced Cooling System:** Water-cooled system with advanced overheating protection.

**Silent Version:** The GREEN POWER GP110S-G Natural Gas 108KVA features a soundproof enclosure with Class 1 acoustic insulation, reducing noise levels and enhancing operational comfort.

### Robust Structure and Safety

The GREEN POWER GP110S-G Natural Gas 108KVA is built with a self-supporting, electro-welded carbon steel frame, painted with RAL 7035 finish, ensuring durability and resistance even

in the most extreme conditions. The unit is equipped with anti-vibration supports, IP23 protection, and a residential exhaust system for silent and efficient operation.

### Ideal Applications

The GREEN POWER GP110S-G Natural Gas 108KVA is the perfect choice for:

Industrial sectors requiring continuous and stable energy supply.

Commercial facilities and data centers needing a reliable emergency power source.

Residences and villas looking for a quiet and eco-friendly generator.

Thanks to compliance with ISO 8528-1:2005, EN 12601, and CE directives, the GREEN POWER GP110S-G Natural Gas 108KVA guarantees high standards of quality, safety, and performance.

### **Product features:**

Phase: Three phase

Maximum power three phase (KW): 86.4

Continuous power three phase (KW): 76.8

Maximum power three phase (KVA): 108

Continuous power three phase (KVA): 96

Fuel: Gas Naturale

Frequency (Hz): 50

Voltage (V): 230 / 400

Engine: GM POWERTRAIN RMG8800

Engine rpm (rpm): 1500

Speed governor: Electronic

Starting system: Automatico

Engine capacity (cm<sup>3</sup>): 8800

Number cylinders: 8

Cooling: Water

Acoustic pressure: 70 dB(A)

Length (mm): 2850

Width (mm): 1000

---

Shop name

Height (mm): 1450

Dry weight (Kg): 1550

Silenced: Yes

Super silenced: Yes

Natural Gas Consumption (m<sup>3</sup>/hr): 26.6 at 75% load

Fuel pressure (mbar): 35-300
