High Performance with Low Consumption Dometic

The DOMETIC NRX90V 90L Black Front stands out for its extraordinary energy efficiency, consuming only 0.4 kW/24h compared to 2.5 kW/24h for gas models of the same size. It operates on 12/24V, making it perfect for campers, boats, and recreational vehicles. Additionally, its compressor refrigeration technology ensures quiet operation with a noise level of only 40 dB(A).

Elegant Design and Easy Installation Dometic

The DOMETIC NRX90V Compressor 90L Black Front is designed for easy and quick installation, requiring no vents, ventilation grilles, or gas systems. With a width of 486 mm, it fits perfectly into the spaces of Dometic Series 5 and 8 models, making conversion simple and effective.

The elegant frameless black front door with a wide handle adds a modern touch, while the reversible hinge allows the door to open from either side, adapting to any space requirement.

Versatile Interior and Practical Solutions

Well-organized space with adjustable shelves and separate compartments for fresh food.

Removable freezer to expand refrigerator capacity when needed.

Control panel with integrated light for intuitive operation.

Multi-function locks that can also act as a vent to improve preservation.

Useful accessories: bottle holder, egg compartment, and separate baskets.

DOMETIC NRX90V Compressor Refrigerator 90L Black Front: The Perfect Choice for Every Need

Thanks to its smart design and cutting-edge technology, the DOMETIC NRX90V 90L offers maximum convenience, efficiency, and energy savings. Perfect for campers, boats, recreational vehicles, and mobile homes, this refrigerator guarantees reliable and long-lasting performance in any condition.
