Product description:

HELVI MINIFOX161 WELDING MACHINE MIG MULTIPROCESS 2KW

The HELVI MINIFOX161 Welding Machine MIG Multiprocess 2KW is the perfect solution for those seeking high performance, versatility, and ease of use, all in a compact and lightweight format. Thanks to its inverter technology, this welder, HELVI MINIFOX161, guarantees excellent welding quality, even for less experienced users, adapting to different applications both in domestic and professional environments.

Technical features HELVI MINIFOX161 MIG Welding Machine:

The HELVI MINIFOX161 Welding Machine MIG Multiprocess 2KW is designed to deliver reliable and durable results:

Inverter technology: energy efficiency and constant performance.

Nominal power 2KW: ideal for welding jobs up to 150A.

MIG / Flux core multi-process: flexibility for various types of welding.

Automatic compensation for network imbalances: stable operation even in poor electrical conditions.

Suitable for generator use: perfect for construction sites or outdoor work.

Compact and lightweight design: only 9.2 kg for maximum portability.

Patented torch and cable holder compartment: organization and unmatched convenience.

Easy adjustment: clear reference scales for immediate settings.

IP22S protection and class H insulation: safety and durability over time.

Standard equipment

The HELVI MINIFOX161 Multiprocess 2KW is supplied with:

2m fixed MIG torch

2m ground cable

0.5 kg Flux-cored wire Ø 0.9 mm

2m gas tube kit

25 mm serrated drive roller Ø

Brush with hammer

HELVI MINIFOX161 - Compact yet powerful: the right choice

With compact dimensions (190x370x335 mm) and a welding power of up to 150A, the HELVI MIG Multiprocess 2KW is perfect for precise work on steel with 0.8 mm wire or 0.9 mm flux-cored wire. Ideal for artisans, advanced hobbyists, and small professionals who want quality, convenience, and high performance in one machine.

Rely on the HELVI MINIFOX161 Welding Machine MIG Multiprocess 2KW to take your work to the next level. Powerful, compact, intuitive, and complete with accessories: everything you need to weld with professional results, wherever you are.

Are you looking for a multi-process welder like the HELVI MINIFOX161 but with different features? [HERE](#) you can find our entire range of HELVI and other brands

manufacturer or any typographical errors.

Product features:

Phase: Single phase

Frequency (Hz): 50 / 60

Voltage (V): 230V \pm 10%

Protection degree: IP22S

Motor insulation class: H

No-load voltage (V): 26

Regulation current (A): 10 \div 150 A

Ø steel welding wire (mm): 0.8

Ø flux cored welding wire (mm): 0.9

Type of welding: Multiprocess

Length (mm): 190

Width (mm): 370

Height (mm): 335

Product type: Welding machine

Weight (Kg): 10.0 / 9.2

Duty Cycle 40°: 150A @ 20% / 90A @ 60% / 70A @ 100%
