

HONDA HSS760A AETD Snow Thrower Tracked

Product price:

3.565,00 € tax excluded

Product description:

HONDA Snow Thrower HSS760A AETD Tracked 4.1kW

HONDA SNOW THROWER HSS760A AETD tracked 4.1kw perfect for shoveling snow up to 51cm high, capable of moving 46 tons of snow per hour, they can shovel an area the size of two tennis courts with 30cm of snow, in just over ten minutes.

The 4.1kw snow throwers are equipped to give you the best possible result. HONDA HSS760A AETD 4.1kw Tracked Snow Thrower is the first in the range to have a hydrostatic control which gives you the best possible control over the speed of the machine.

This is why the height adjustment of the auger is very useful.

For more traction, you may want to consider a tracked snow thrower. With HONDA HSS760A AETD 4.1kw Tracked Snow Thrower there is no risk of slipping or skidding, just plenty of control even on pedestrian walkways or sloped roads.

Throwing snow a distance of 14 metres takes a lot of effort and would require several people with shovels to do the job, again the 4.1kw GX200 4-stroke engine snow thrower will do the job in no time. This engine is as reliable as it is powerful and has been designed to produce low noise, vibration and emissions, while also ensuring low fuel consumption. It also has no problems with cold starts.

Melting ice also causes problems. In this case, it is leaks and standing water on the roof that can damage the property. To avoid problems for buildings with flat roofs, owners of a HONDA HSS760A AETD 4.1kW snow thrower take it to the roof of their home, where once again these snow throwers shine for grip and maneuverability.

This snow thrower is equipped with a unique hour meter function, which tells you when the next service is due and when regular maintenance is due.

HONDA TECHNICAL FEATURES HSS760A AETD 4.1kw:

Fuel: Petrol

Engine: Honda GX200

Engine speed (rpm): 3600

Ignition: Recoil starter

Starting: Electric

Fuel tank capacity (L): 3.1

Consumption (L/h): 1.8

Sound power: 102 dB(A)

Length (mm): 1485

Width (mm): 630

Height (mm): 1105

Dry weight (Kg): 115

Net power (kW): 4.1

Working height (mm): 500

Maximum flow rate (t/h): 42

Maximum jet distance (m): 15

Direction of jet adjustment: Electric

Transmission type: Hydrostatic

Speed ??(Km/h): 0-3.96

Type of traction: Tracks

Engine brand: Honda

Steering clutch: Yes

Transmission type: Hydrostatic
