Product description:

PRAMAC ATS AUTOMATIC TRANSFER SWITCH FRO PMi4500

The ATS (Automatic Transfer Switch) Control Panel ensures continuous and safe power supply by automatically switching between utility power and a backup generator in case of outages. Designed for residential, commercial, and industrial use, it guarantees efficiency, low noise, and full compliance with safety standards.

With features such as auto and manual modes, emergency stop button, and LED status indicators, this ATS panel delivers secure performance and seamless operation. Compact, durable, and easy to install, it is the ideal solution for reliable backup power management.

Product features:

Frequency (Hz): 50

Voltage (V): 230

Charging voltage (V): 13.2

Product type: Switching Frame

Weight (Kg): 6.2

Dimensions [mm]: 360x250x140

Nominal Voltage: 50A

Number of control line port pins: 7-core
