Product description:

Dometic PerfectView CAM301X: Compact and Robust Spherical Camera

The Dometic PerfectView CAM301X is a **Black** spherical camera, designed specifically for use as a **front camera** on trucks and commercial vehicles, but suitable for a variety of applications requiring reliable monitoring.

Key Features

Spherical and Flexible Design: The camera features a compact design and is equipped with a **flexible mount** that allows **precise alignment** of the lens.

Night Vision: The wide-angle lens is supported by **infrared LEDs**, ensuring **excellent image quality** both day and night.

Integrated Audio: Includes a **handy microphone integrated** to provide real-time audio feedback.

Durable Construction: The housing is made of **robust aluminum**, making it **waterproof** and **corrosion-proof**.

Its **IP69K protection class** guarantees maximum resistance in harsh environments, from dusty roads to high-pressure washes, ensuring consistent performance.

"Designed to withstand extreme conditions, it operates over a wide temperature range, from -20°C to $+70^{\circ}\text{C}$, making it ideal for any climate."

"The **ECE R10** approval certifies compliance with electromagnetic compatibility requirements for vehicles, ensuring safe operation without interference."

Technical Features:

Color: Black

Brand: Dometic

Contents Scope of delivery: Camera, 5 m system cable, installation material, manual

Product description: Sphere camera

Product dimensions depth, [mm]: 44
Product dimensions height, [mm]: 84
Product dimensions width, [mm]: 58
Net weight, [kg]: 0.14
Net weight, [lbs]: 0.31
Neck dimensions depth, [mm]: 195
Neck dimensions height, [mm]: 105
Neck dimensions width, [mm]: 275
Neck weight, [kg]: 0.80
Neck weight, [lbs]: 1.76
SKU certificates: ECE R10
Input voltage (DC), [V]: 12
IP class: IP69K
Min. operating temperature, [°C]: -20.000000
Maximum operating temperature, [°C]: 70.000000
