Product description:

HYUNDAI H10000iE 8KW Silent Inverter Generator

The HYUNDAI H10000iE 8KW Silent Inverter Generator is the ideal solution for those looking for power, reliability, and silence in a single device. Equipped with inverter technology, it provides stable, high-quality energy, perfect for powering sensitive electronic devices, tools, and household or professional equipment.

This single-phase model has a nominal power of 8 kW and a maximum of 8.5 kW, operating at a voltage of 230 V and a frequency of 50 Hz. It is equipped with a HYUNDAI H440i engine at 3000 rpm, 438 cm³, designed to guarantee high performance and long life. The electric start ensures ease of use, while the 30-liter tank offers excellent operating autonomy.

The socket configuration includes 1x16A, 1x32A and 1x63A, making the generator suitable for multiple uses, both domestic and industrial. The low noise level of 70 dB(A) at 7 meters and the compact construction (770x625x700 mm for 86 kg) make it easily transportable and suitable even for environments where acoustic comfort is important.

Thanks to the combination of power, efficiency and silence, the HYUNDAI H10000iE 8KW Silent Inverter Generator is an excellent choice for professionals, campers or anyone who needs stable energy even when off-grid.
