Product description:

HYUNDAI 65161 Silent Inverter Generator 1.1KW

HYUNDAI 65161 Silent Inverter Generator 1.1KW is the ideal companion when you need safe and silent power in every situation.

Thanks to the 230V single-phase inverter technology, it offers a maximum power of 1.1 kW (1.0 kW nominal), perfect for powering household appliances, light work equipment and sensitive electronic devices without voltage fluctuations.

The 60 cm³ KM145F petrol engine, with recoil starter, is designed to reduce consumption and maintenance:

the 2-litre tank and 0.2-litre oil capacity allow for prolonged use in complete safety.

The 100% copper alternator ensures long-term reliability and stability in output, while the sound pressure of only 62 dB(A) makes the generator also suitable for campsites, gardens, residential areas and work during noise-sensitive hours.

Compact and easy to handle, the HYUNDAI 65161 weighs only 13 kg and measures 430x250x392 mm,

so you can easily transport it in the trunk of your car or store it without taking up space.

The practical 16A Type A/Type C socket allows you to quickly connect appliances, tools and chargers, transforming this generator into a ready-to-use solution for emergencies, leisure time and small professional needs.

Technical Features:

Phase type: Single phase

Maximum single-phase power (kW): 1.1

Rated power: 1.0 kW

Fuel: Petrol

Frequency (Hz): 50

Voltage (V): 230

Socket configuration: 1x16A / Type A / Type C

Displacement (cm³): 60

Oil capacity (L): 0.2

Starting: Recoil

Net weight (kg): 13

Sound pressure: 62 dB(A)

Product dimensions (mm): 430x250x392

Alternator: 100% Copper

Engine: KM145F

Tank capacity (L): 2
