Product description:

VITRIFRIGO C39i CHR HP Refrigerator-Freezer Gray 39LT

The VITRIFRIGO C39i CHR HP Refrigerator-Freezer Gray is a compact and efficient refrigerator, ideal for marine applications, campers and recreational vehicles. With a total capacity of 39 liters, of which 3.6 liters are dedicated to the freezer compartment, it offers a perfect balance between small size and full functionality.

This model is equipped with the NextGen R600a compressor, an innovative technology “Tailor made for mobile cooling” that uses high-efficiency, low-environmental-impact R600a natural gas. The HP compressor is 3 kg lighter than previous models and ensures quiet, low-vibration operation and reduced consumption, guaranteeing high performance even in the most demanding conditions.

The design of the VITRIFRIGO C39i CHR HP Gray Refrigerator-Freezer features a lighter 42 mm thick door, with interchangeable panels ranging in thickness from 0.8 to 3.0 mm. The Chromelock handle, tested for over 150,000 opening and closing cycles, ensures a robust and reliable closure, even in marine environments. It also includes the Vent Position function, which keeps the door ajar when the refrigerator is not in use, preventing mold and odors.

Designed for maximum installation flexibility, it features internal fixing points and a removable and replaceable gasket for quick and easy maintenance.

Technical Features:

It is also compatible with the following optional accessories:

Power Pack 115–230Vac 50/60Hz 24Vdc/300W

Fixing profile for Door Inside or Door Outside installation

Main technical data:

Door finish: Grey

Door colour: Grey

Capacity: 39 L (freezer 3.6 L)

Energy consumption: 219 Wh/24h

Height: 547 mm

Width: 390 mm

Depth: 397 mm

Weight: 13 Kg

Series: CHROMELOCK

Reversible door: Yes

Thermostat: Mechanical

Refrigeration technology: Compressor

Motor unit: Internal

Door opening: Single front door

Power supply: 12–24 V DC
