

AXO PTR 30

Product price:

1.977,00 € tax excluded

Product description:

The PTR generators are driven by the power take-off (PTO) of an agricultural tractor and are suitable for use mainly in the agricultural sector.

The alternators used are of the synchronous type with compound regulation, but on request also with electronic AVR regulation.

The standard degree of protection is IP 23.

The standard supply includes an electrical panel with three-phase and single-phase sockets suitable for total power pick-up. A four-pole thermomagnetic circuit breaker with differential (circuit breaker) is also installed on the panel to protect the alternator from overloads and the unit from user malfunctions.

PTO shaft generator set

Model AXO PTR 30 at 1500 rpm

Three-phase asynchronous

Alternator Made in Italy

Images are purely indicative.

Product features:

Phase: Single phase / Three phase
Maximum power three phase (KW): 25.2
Maximum power three phase (KVA): 30
Voltage (V): 230 / 400
Engine rpm (rpm): 1500
Alternator: Three-phase asynchronous, Made in Italy
PTO speed (round/min): 430
Minimum tractor output (HP): 70
Length (mm): 925
Width (mm): 845
Height (mm): 925
Dry weight (Kg): 216
Inverter: No
AVR: No
Compound: Yes
Silenced: No
Super silenced: No
