## Product description:

### MASE IS3,6 SINGLE PHASE MARINE GENERATOR 3KW

MASE IS3,6 single phase marine generator with Yanmar L70N engine with diesel power supply at 3000 rpm capable of delivering a power of 3KW.

The MASE IS3.6 is designed with a soundproof cabin that makes it **supersilenced**. The MASE IS3,6 marine generator is built with a Yanmar diesel-powered engine and synchronous, self-excited alternator with air/water cooling. With its small size it is also suitable on small boats.

The MASE IS3,6 CBU control module has a new design, the latest technology, a large display and micro-buttons for quick navigation of menus, start and stop procedures; IP54 protection rating. Very compact, 86x124mm and equipped with 10mts shielded cable, the CBU module has multiple functions for a complete monitoring of the MASE IS3,6 marine generator:

- ON/OFF/START/STOP/MENU controls.
- Digital hour meter, Output voltage, Group battery voltage, External battery pack voltage, Frequency, Maintenance interval, List of last 10 alarms with time.
- 13 different alarm icons can be displayed.
- 485 Mod-Bus connector to monitor the group from the main control panel of the boat.

The soundproof cabin of the MASE IS3,6 is made up of a supporting structure in aluminium profile which supports panels in marine painted aluminium type 5754 extremely light and with a very high resistance to external agents. The excellent accessibility to the internal compartment makes the maintenance operations easier even with the generator set installed in narrow spaces.
