Product description:

MASE MARINER 1600 S SILENCED SINGLE-PHASE MARINE GENERATOR 15.3 KW

MASE MARINER1600S single phase silenced marine generator is equipped with a Yanmar 4TNV88 diesel engine capable of delivering a maximum power of 15.3 KW at 1500 rpm.

The MASE MARINER1600S is built with and synchronous alternator, self-excited with air cooling, it is extremely compact and powerful, suitable even on small boats.

The MASE MARINER1600S allows easy access for maintenance of the fuel and lubrication systems, sea water pump, air filter, oil filter and fuel. It is also equipped with safety systems of auto stop for low oil pressure and high engine temperature or exhaust gas.

The alternator of the MASE MARINER1600S is synchronous with 4 poles, self-regulated, self-excited, brushless, which in conjunction with the powerful Yanmar engine can deliver a maximum power of 15.3 KW. The alternator is complete with AVR voltage regulator that ensures the stability of the voltage delivered by the generator, delivering current as the home.

The MASE MARINER1600S marine generator is equipped with a soundproof cabin that makes it super quiet, with a sound emission of 52 dB(A) at a distance of 7 m. The soundproof cabin in painted aluminum is extremely lightweight and of very high resistance to external agents.
