

# HONDA EG 4500 CL Petrol Single-Phase D-Avr Generator 4.5 kW 5.6 kVA

Product price:

**1.176,00 € tax excluded**

## Product description:

HONDA EG4500CL Generator

Honda EG4500CL generator Continuing to maintain uninterruptible power supplies because a generator has damaged a tool or broken down is not a condition that can be tolerated.

Honda EG4500CL generator are the right tools. Ideal for sensitive electronic equipment as well as demanding commercial and rental applications, they are always ready for work, anywhere, anytime.

## technical specifications HONDA EG4500CL:

Phase Type: Single Phase

Maximum power Single-phase (kW): 4.5

Single-phase continuous power (kW): 4

Maximum power single-phase (kVA): 5.6

Single-phase continuous power use (kVA): 5

Fuel: Petrol

Voltage (V): 230

Frequency (Hz): 50 Hz

Engine: Honda GX390T2

Type: 4-stroke, OHV, 1 cylinder

Starter: Manual

Autonomy: 9h 30

Consumption: 2.5 Lt/h

Length: 681 mm

Width: 530 mm

Height: 571 mm

Weight (Kg): 79.5

D-Avr

Current (A) 17.4

Displacement (cm<sup>3</sup>): 389

Engine revs: 3000

### **D-AVR**

It is good to know that you can always count on the power of a Honda EG4500CL generator, produced through a digital automatic voltage regulator (D-AVR). This regulator is an improvement over the traditional AVR and provides smoother and more efficient power for sensitive electronic equipment, offering a stable clean energy waveform.

### **As autonomous as a day's work**

With durations between 8 and 12 hours, Honda EG4500CL generators become reliable companions, ready to work every day of the week. Once in operation, they meet any demand, responding well even to load variations.

The practical fuel cap allows easy refueling without spilling: everything is always neat and tidy with a Honda EG4500CL generator.

The fuel tank cap also allows the fuel level to be checked without removing it, also offering significant time savings.

### **Fast and effective starting**

Extremely convenient sockets and controls enable quick and easy starting and operation, particularly because the starter motor and starter device, fuel tank cap, switch, and plugs are all located on the same panel. This allows easy and convenient machine start-up and operation.

### **Oil Alert™**

Don't forget that Oil Alert™ technology will automatically disengage the contact if the oil is below the safe level.

### **Smooth operation**

Honda for the Honda EG4500CL generator has developed a unique engine support system with a durable steel frame. These rubber shock absorbers, placed on both sides of the engine and angled at 45°, significantly reduce engine vibration of an already quiet machine. Aesthetically beautiful, functionally effective.

### **Warranty**

When you purchase a Honda EG4500CL generator you enjoy the exclusive benefit of a national or commercial warranty, provided that the service program is met.

**Product features:**

Phase: Single phase

Maximum power single phase (KW): 4.5

Continuous power single phase (KW): 4

Maximum power single phase (KVA): 5.62

Continuous power single phase (KVA): 5

Fuel: Gasoline

Frequency (Hz): 50

Voltage (V): 230

Sockets configuration: 1 x 230V 16A CEE - 1 x 230V 32A CEE

Engine: Honda GX390 T2, 4 stroke, OHV

Engine rpm (rpm): 3000

Ignition: Transistorized

Starting system: Manuale

Engine capacity (cm<sup>3</sup>): 389

Number cylinders: 1

Cooling: Air

Alternator: Bipolar

Bore x stroke (mm): 88 x 64

Fuel tank capacity (L): 24

Consumption (L/h): 2.5

Running time (h): 9.5

Acoustic power: 97 dB(A)

Acoustic pressure: 81 dB(A)

Length (mm): 681

Width (mm): 530

Height (mm): 571

Dry weight (Kg): 79.5

Silenced: No

Super silenced: No

Product type: Generator

ATS Switch device : No

Voltage regulator: iAVR

Engine manufacturer: Honda
