

MASE MARINER 810 S SINGLE PHASE MARINE GENERATOR SILENCED 8.8KW EPA

Product price:

12,600.00 € tax excluded

Product description:

MASE MARINER 810 S SILENCED SINGLE-PHASE MARINE GENERATOR 8.8KW EPA

MASE MARINER810S marine generator single phase silenced is equipped with YANMAR 3TNV80F engine with **EPA emissions standard** powered by diesel capable of delivering a maximum power of 8.8 KW at 1800 rpm.

The MASE MARINER810S is built with and air-cooled, self-excited synchronous alternator, it is extremely compact and powerful, suitable even on small boats. The alternator is complete with a voltage regulator that ensures the stability of the voltage delivered by the generator, delivering current like at home. The rotor and the stator are coated with epoxy paint to prevent the attack of atmospheric agents, in addition it is equipped with safety systems of auto stop in case of high temperatures detected on the windings.

The MASE MARINER810S allows easy access for maintenance of the fuel and lubrication systems, sea water pump, air filter, oil filter and fuel. It is also equipped with safety systems of auto stop for low oil pressure and high temperature engine or exhaust gas.

The MASE MARINER810S is equipped with a soundproof cabin that makes it super silenced, with a sound emission of 53dB(A) at a distance of 7 m. The painted aluminum soundproofing cabin is extremely lightweight and of very high resistance to external agents.

The MASE MARINER810S marine generator has **EPA certification** valid only **for the American market**.

TECHNICAL FEATURES MASE MARINER810S

Phase Type: Single Phase
Maximum Power: 8.8 KW
Fuel: Diesel
Voltage: 120 - 240 V
Frequency: 60 Hz
Motor: YANMAR 3TNV80F, 4 Stroke
Emission Standard: EPA
Mechanical Power: 14.35 Hp
Number of cylinders: 3
Displacement: 1267 cc
Engine RPM: 1800 rpm
Fuel consumption: 2.6 l/h
Sound pressure: 53 dB(A) @ 7 m
Alternator: Synchronous Brushless
Voltage regulator: Yes
Length: 868 mm
Width: 540 mm
Height: 618 mm
Weight: 230 Kg

Product features:

Phase: Single phase
Maximum power single phase (KW): 8.8
Fuel: Diesel
Frequency (Hz): 60
Voltage (V): 120 / 240
Engine: YANMAR 3TNV80F
Emissions Regulations: EPA
Engine rpm (rpm): 1800
Speed governor: Centrifugal, mechanical
Engine capacity (cm³): 1267
Number cylinders: 3
Cooling: Air
Inyección : Direct
Alternator: Synchronous, self-excited

Poles: 4

Lubrication: Forced

Consumption (L/h): 2.6 at 100% of the load

Acoustic pressure: 53 dB(A) at 7 m

Length (mm): 868

Width (mm): 540

Height (mm): 618

Dry weight (Kg): 230

Inverter: No

AVR: No

Compound: No

Silenced: Yes

Super silenced: Yes

Voltage regulator: YES
