

TECNOGEN H2700

Product description:

Generator set TECNOGEN H6500T 4,3KW

TECNOGEN H6500T GENSET three-phase 4.3 KW and single-phase 3 KW genset with a 3000 rpm Honda engine powered by petrol. The TECNOGEN H6500T genset is easy to use and is small, handy and easy to maintain. The TECNOGEN H6500T genset is equipped with a manual recoil starter with recoil cord. This TECNOGEN H6500T genset is perfect for both hobby and professional use, thanks to its reliable petrol-powered Honda engine and all the high quality components it is composed of.

Why buy an TECNOGEN H6500T genset?

First of all, the TECNOGEN H6500T genset solves problems of power failure during black-outs in various environments, from homes to companies. The TECNOGEN H6500T genset is also used to supply electricity on construction sites and for hobby use. The TECNOGEN H6500T are light, easy to transport, compact and robust machines, simple to use and with low running costs. They also offer an excellent price/quality ratio.

On the H6500T genset it is possible to install lifting hooks, very convenient for moving the generator with an overhead crane or a small crane.

Below are the main features of the TECNOGEN H6500T genset:

Maximum single-phase power: 3 KW

Maximum power Three-phase: 4.3 KW

Fuel: Petrol

Voltage: 230 V / 400 V

Frequency: 50 Hz

Engine: Honda GX270

Starter: Manual

Length: 780 mm
Width: 520 mm
Height: 560 mm
Weight: 72 Kg

The entire TECNOGEN H6500T genset range:

TECNOGEN generating sets are available in both single-phase and three-phase versions, with power ratings from 2.3 to 21 KVA MAX, equipped with petrol or diesel engines, air-cooled, 3000 rpm, electric and/or manual start with recoil starter. Compact, simplified and economical, they boast an excellent price/performance/size/weight ratio. Easily transportable thanks to the reduced overall dimensions due to an essential set-up, they are indicated for all those who need an economical source of energy, however assembled with first-rate components that guarantee absolute reliability. The petrol-powered TECNOGEN versions of the COMPACT line, thanks to the latest generation Honda engines, fall within the parameters of the 2000/14/CE noise directive.

Advantages:

Compactness: the generator is small in size, making it easy to transport and store.

Reliability: the generator is designed to offer years of reliable service.

Versatility: the generator can be used for a wide range of applications.

Product features:

Phase: Single phase / Three phase
Maximum power single phase (KW): 3
Maximum power single phase (KVA): 3.8
Maximum power three phase (KW): 4.3
Maximum power three phase (KVA): 5.4
Fuel: Gasoline
Frequency (Hz): 50
Voltage (V): 230 / 400
Engine: HONDA GC160
Emissions Regulations: Stage 5
Engine rpm (rpm): 3000

Starting system: Manual
Engine capacity (cm³): 270
Number cylinders: 1
Cooling: Air
Fuel tank capacity (L): 2
Consumption (L/h): 0,8 al 75% del carico
Running time (h): 2,5
Acoustic power: 95 dB(A)
Length (mm): 560
Width (mm): 370
Height (mm): 360
Dry weight (Kg): 27
Silenced: No
Super silenced: No
ATS Switch device : No
Voltage regulator: AVR (optional)
Engine manufacturer: Honda
