

# VTE PAGURO 12000V Supersilenced Marine Generator 12 kVA

**Product price:**

**12,446.50 € tax excluded**

## **Product description:**

The VTE generator sets for the nautical sector are a reference point on the market for the optimal relationship between performance, silence and reduced dimensions.

The PAGURO range is very wide to satisfy every need of power and performance, for sailing and motor boats.

### **Silent**

Both the engine and the Paguro generator alternator are water cooled: as no ventilation is required for cooling, noise is drastically reduced.

In addition, the outer shell has a single small opening for the entry of combustion air with a labyrinth path that prevents the exit of noise, the outer shell is made of reinforced fiberglass multilayer and covered with high-density neoprene for maximum sound insulation.

### **Lightweight and compact**

Each product in the Paguro range is conceived, designed and built with ad hoc components to reduce the overall dimensions and exploit the empty spaces inside. Thanks to VTE technology, each Paguro generator is the most compact with the same energy performance.

### **Safe**

VTE generators are equipped with alarm indicators and a charging indicator with LED light for an immediate evaluation of the power delivered. They stop automatically in the event of low oil pressure or overtemperature.

Non-binding images and technical data.

**Product features:**

Phase: Single phase  
Continuous power single phase (KW): 10  
Continuous power single phase (KVA): 12  
Fuel: Diesel  
Frequency (Hz): 50  
Voltage (V): 230  
Engine: Lombardini LDW1003  
Engine rpm (rpm): 3000  
Starting system: Elettrico  
Number cylinders: 3  
Cooling: Fresh water with heat exchanger  
Alternator: Permanent magnets  
Consumption (L/h): 0.35  
Acoustic pressure: 50 ÷ 53 dB(A)  
Length (mm): 770  
Width (mm): 460  
Height (mm): 620  
Dry weight (Kg): 185  
Silenced: Yes  
Super silenced: Yes  
Product type: Generator  
Engine manufacturer: LOMBARDINI
