

VTE PAGURO 14000 Marine Generator 14 kVA 50 Hz Supersilenced

Product price:

11.534,00 € tax excluded

Product description:

VTE Marine Generator Set PAGURO14000 super-silenced 14 KVA

PAGURO14000 MARINE GENERATOR14 KVA single-phase VTE Marine Generating Set, with Lombardini diesel-powered 3000 rpm engine and water-cooled with stainless steel water/air heat exchanger.

All parts in contact with seawater are made of 316 L stainless steel.

Thanks to the water-cooling and double anti-vibration system, vibrations and noise emissions are very low, making the VTE PAGURO14000 supersilenced and among the lowest noise emissions marine generators in its range.

The compact, space-saving and manoeuvrable VTE PAGURO14000 is suitable for use on small boats at 3000 rpm, giving power to your entire vessel.

Technical characteristics:

Fuel: Diesel

Engine revs (rpm): 3000

Phase type: Single-phase

Single-phase continuous power (KVA): 14

Frequency (Hz): 50

Voltage (V): 230

Engine: Lombardini LDW 1003

Starter: Electric

Silenced: Supersilenced 54 dB(A)

Cooling: Fresh water with heat exchanger

Dry weight (kg): 210

Length (mm): 860

Width (mm): 580

Height (mm): 650

Motor

The VTE PAGURO14000 marine generator is built with the efficient and reliable Lombardini diesel-powered engine.

This PAGURO14000 marine generator designed with a stainless steel water/air heat exchanger.

Alternator

The alternator of this marine generator is synchronous, brushless and with class H insulation. The capacitor regulation makes the VTE PAGURO14000 marine generator set ideal for powering sensitive electronic devices that fear voltage and current fluctuations because it makes the voltage stable and the output current clean.

It is also water-cooled via an AISI 316 L stainless steel heat exchanger.

Included with the PAGURO14000 alternator is the battery charger for the dedicated 12 V / 8 A starter battery.

Soundproofing capsule and double anti-vibration system

The reinforced fibreglass capsule with composite layering and the high-density soundproofing material coating make this generator set one of the most silent compared to its competitors.

The capsule allows installation even in cramped spaces, thanks to its composition: two upper parts and one lower part.

Finally, the dual anti-vibration system, with 4 soft inner mounts and 4 semi-elastic outer mounts, makes the PAGURO14000 stable even in less calm waters and silenced, so you can enjoy your navigation without further worries.

If you are looking for a product similar to the PAGURO14000 genset or with different characteristics, you can consult our entire catalogue of marine gensets [CLICK HERE](#).

Product features:

Phase: Single phase

Continuous power single phase (KW): 11

Continuous power single phase (KVA): 14

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Lombardini LDW1003

Engine rpm (rpm): 3000

Starting system: Electric

Number cylinders: 3

Cooling: Fresh water with heat exchanger

Alternator: Synchronous, brushless

Consumption (L/h): 0.35

Acoustic pressure: 54 dB(A)

Length (mm): 860
Width (mm): 580
Height (mm): 650
Dry weight (Kg): 210
Silenced: Yes
Super silenced: Yes
Product type: Generator
Engine manufacturer: Lombardini
