

TECNOGEN HTPK10-4

Metal Halide Lighting Tower

Highway Trailer

Product description:

The Tecnogen HT PK 10/4 lighting tower is a real mobile lighting unit, easy to use and to transport thanks to its compact dimensions and the homologated trailer for road traffic.

The large area illuminated by the 4 metal halide lamps of 1000 W each, the particularly fast hydraulic system for raising and closing the floodlight tower and the 350° rotation of the column itself, make the HT PK 10/4 model particularly suitable for the construction sector and professional hire.

4 metal halides floodlights

(power 1000 W cad)

- Hydraulic column in galvanized steel
- Maximum height 9 m
- 350° rotation
- Fast lifting sistem (11 seconds) with protection system
- 135 litres tank, for more than 80 hours of battery life
- Sound level (-) at 7 meters: 60 dB (A)
- Liquid collection safety tank
- 4 adjustable outriggers feet

Emission engine covered by Directive 97/68/EC stage II N= natural

Noise according to Directive 200/14/EC

Non-binding images and technical data

Product features:

Phase: Single phase

Maximum power single phase (KW): 7

Continuous power single phase (KW): 6.4

Maximum power single phase (KVA): 8.8

Continuous power single phase (KVA): 8

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: HONDA GC160

Engine rpm (rpm): 1500

Starting system: Electric

Engine capacity (cm³): 1131

Cooling: Water

Type of lamps: Halogen

Lamps: 4 x 1000 W

Telescopic pole: Galvanized steel

Lifting System: Hydraulic lifting system

Maximum height (m): 9

Open size (mm): 1040 x 5500 x 1800

Length closed (mm): 2450

Width closed (mm): 1300

Height closed (mm): 2300

Transportability: Fast Trailer

Fuel tank capacity (L): 135

Consumption (L/h): 0,8 al 75% del carico

Running time (h): 75

Acoustic pressure: 60 dB(A) at 7 m

Dry weight (Kg): 1030

Inverter: No

AVR: No

Compound: No

Silenced: Yes

Super silenced: No

Engine manufacturer: Perkins
