

TECNOGEN H5000SS/A GENERATOR WITH SEPARATE AUTOMATIC PANEL

Product description:

TECHNOGEN H5000SS/A 3,6 KW GENERATOR WITH AUTOMATIC PANEL

Generator TECNOGEN H5000SS/A single-phase power of 3,6 KW with Honda engine of 3000 rpm supplied by gasoline. The TECNOGEN H5000SS/A generating set is easy to use and is small in size, easy to handle and easy to maintain. The TECNOGEN H5000SS/A generating set is equipped with electric start. This generator set is perfect for both hobby and professional use, thanks to the reliable gasoline-powered Honda engine and all the high quality components it is composed of.

Pre-equipped with automatic panel supplied separately for automatic start in case of power failure.

Why buy a H5000SS/A genset?

First of all, they solve problems of power failure during blackouts in various environments, from homes to businesses. The TECNOGEN H5000SS/A genset is also used to provide electricity on construction sites and for hobby use.

The TECNOGEN H5000SS/A genset can be fitted with lifting hooks, which are very convenient for moving the power generator with an overhead crane or a small crane.

The following are the main features:

Maximum single-phase power: 3.6 KW

Maximum single-phase power: 4. 5 KVA

Fuel: Gasoline

Voltage: 230 V

Frequency: 50 Hz

Motor: HONDA GX270

Starting: Automatic

Length: 940 mm
Width: 510 mm
Height: 550 mm
Weight: 106 Kg
With ATS automatic panel

All TECNOGEN range

The TECNOGEN units are available in both single-phase and three-phase versions, with powers from 2.3 to 21 KVA MAX, equipped with gasoline or diesel engines, air-cooled, 3000 rpm, with electric and/or manual start with recoil starter. Compact, simplified and economical, they boast an excellent price/performance/size/weight ratio. Easily transportable thanks to the reduced dimensions due to an essential equipment, are indicated to all those who need an economic source of energy, however, assembled with a first-class components that ensure absolute reliability.

Product features:

Phase: Single phase
Maximum power single phase (KW): 3.6
Maximum power single phase (KVA): 4.5
Fuel: Gasoline
Frequency (Hz): 50
Voltage (V): 230
Engine: HONDA GC160
Engine rpm (rpm): 3000
Starting system: Electric
Engine capacity (cm³): 270
Number cylinders: 1
Cooling: Air
Fuel tank capacity (L): 7
Consumption (L/h): 1.5
Running time (h): 4.6
Acoustic power: 88 dB(A)
Length (mm): 940
Width (mm): 510
Height (mm): 550
Dry weight (Kg): 106
Silenced: No

Super silenced: Yes

ATS Switch device : Yes

Voltage regulator: Capacitor / AVR (optional)

Engine manufacturer: Honda
