

BINDA EXCELSIOR PUMP – G E00 GB

Product description:

The company BINDA, continuing its traditional production of hand pumps started in 1919, has always pursued constant technological evolution of its products, full customer satisfaction, respect for the environment, and an excellent quality/price ratio. Thanks to these values, BINDA has achieved worldwide leadership in fluid management through manual pumping systems, offering the most complete range of pumps and complementary items available on the international market. The company, RINA certified and official NATO supplier, guarantees the highest quality standards of its production thanks to manufacturing and control systems compliant with the aforementioned military regulations.

EXCELSIOR PUMP: Semi-rotary, self-priming, double-acting, reciprocating hand pump. The body is made of cast iron and the internal parts of bronze; depending on the version, the seals are in nitrile rubber (GB) or Viton (GB-be). The maximum delivery head is 25 meters. Version E00 is supplied without flanges.
