

HYUNDAI 35615

Submersible Electric Pump

600W

Product price:

62,21 € tax excluded

Product description:

Electric pump for the movement of infiltration water, irrigation of small gardens, emptying of cellars, garages and basements, drainage of small construction sites and wells of wastewater. Due to its versatility, it can be used in fixed or mobile installations.

Specifically for fresh water.

The main body of the pump is made of shock-resistant resin resistant to oxidation typical of pumps made of metal material, increasing its durability.

Images and technical data are not binding.

Product features:

Frequency (Hz): 50

Voltage (V): 230

Pump type: Submersible Pump

Fluid type: Clean water

Maximum output capacity (Lt/min): 50

Power (W): 600

Main body material: Impact-resistant resin

Float: No

Thermal protection: Yes

Maximum use depth (m): 8

Maximum height (m): 35

Maximum flow (m³/h): 3

IP classification: IPX4

Diameter feed pipe: G1

Power cable length (m): 10

Package dimensions (mm): 390 x 225 x 260

Gross weight (Kg): 7.5

Outlet diameter thread type (mm/inches): 25 mm - 1"
