

# HONDA HSS 760A T Snowthrower with Tracks 4.1 kW

**Product price:**

**3.810,66 € tax excluded**

## **Product description:**

SNOWPLOWS HONDA HSS760AET with tracks 4,1kW

SNOWPLOWS HONDA HSS760AET with tracks 4.1KW are perfect for shoveling 51 cm, capable of moving 46 tons of snow per hour, they can shovel an area the size of two tennis courts with 30 cm of snow, in just over ten minutes.

HSS760AET SNOWPLOWS 4.1Kw snowplows are equipped to give you the best possible result. SNOWPLOWS HONDA HSS760AET with tracks 4.1Kw are the first in the range to have a hydrostatic control that gives you the best possible control of the machine's speed.

This is why the tiller height adjustment comes in handy.

For more traction, you might consider a tracked snow blower. With the HONDA HSS760AET SNOWPLOWS 4.1Kw, there is no risk of slipping or sliding, only ample control even on pedestrian walkways or sloping roads. Track-driven snow plows feature low-temperature folding rubber tracks for secure tread grip.

Throwing snow a distance of 14 meters takes a lot of effort and would require many people with shovels to do all the work; again, the HONDA HSS760AET 4.1kw snowplows with GX200 4-stroke engine will get the job done in no time. This engine is as reliable as it is powerful and is designed to produce low noise, vibration and emissions, while also ensuring low fuel consumption. And it has no problems with cold starting either.

Melting ice also brings problems. In this case, it's leaks and standing water on the roof that can damage the property. To avoid problems for buildings with flat roofs, those who own a SNOWPLOWS HONDA HSS760AET with tracks 4.1kw snowplows take it to the roof of their home, where once again these snowplows shine in grip and maneuverability.

This snowplows has a unique hour meter function that tells you when the next service is due and

when routine maintenance is due.

## TECHNICAL FEATURES SNOWPLOWS HONDA HSS760AET with tracks 4.1KW

Net power: 4.1 kW

Fuel : Petrol

Engine model: Honda GX 200T2

Engine type: 4-stroke

Starter system: Recoil

Auger clearing width (mm): 605

Clearing height (mm): 420

Clear capacity (tonnes/h): 42

Throwing distance (m): 14

Discharge chute adjustment: Manual

Traction type: Tracks

Drive: Hydrostatic

Guaranteed sound power level dB(A): 102

Length (mm): 1485

Width (mm): 630

Height (mm): 1105

Dry weight (kg): 105

Speed (Km/h) : 0-3.24

### Product features:

Fuel: Gasoline

Engine: Honda GX200, 4 stroke

Engine rpm (rpm): 3600

Ignition: Recoil

Starting system: Manuale

Working width (mm): 605

Working height (mm): 420

Capacidad máxima (t/h): 42

Speed (Km/h): 0-3.24

Throwing distance (m): 14

Discharge chute adjustment: Manual

Transmission: Hydrostatics

Net power (kW): 4.1

Fuel tank capacity (L): 3.1  
Consumption (L/h): 1.72  
Running time (h): 1.8  
Acoustic power: 102 dB(A)  
Length (mm): 1485  
Width (mm): 630  
Height (mm): 1105  
Dry weight (Kg): 105  
Traction type: Track laying  
Engine manufacturer: Honda
