

HONDA HS 1390i ZE Snowthrower Hybrid Engine with Tracks

Product description:

HONDA snowplow HSM1390iZE 8,7kW

HONDA HSM1390iZE is an innovative snowplow capable of summoning 8,7KW of power intended for areas where snowfall is the order of the day.

Honda's 4-stroke focuses on devouring snow at a phenomenal rate while charging a powerful battery. This battery drives two powerful electric motors that provide stable independent drive to the tracks. Imagine two tennis courts covered in a foot of snow. The HONDA HSM1390iZE 8.7KW hybrid snowplow shovels away all the snow in less than six minutes, so you don't have to worry about a thing when a storm is coming.

A robust 4-stroke iGX engine is the heart of the hybrid snowplow. Its sole purpose is to power the tiller, focusing its power on swallowing huge amounts of snow and throwing it as far away as possible. It's also intelligent and can sense the highest snow resistance, with automatic adjustment to run at an optimal speed.

HONDA HSM1390iZE consists of two robust electric motors provide traction and save fuel. Without them, a large gasoline engine would be needed to do the same amount of work.

An on-board diagnostic system, complete with gauges, can detect warnings during startup and operation.

When the landscape turns white, you'll definitely need a snowplow to rely on. The HONDA HSM1390iZE 8.7KW snowplow has it all: state-of-the-art technology, fuel efficiency, low noise and exceptional shoveling performance. With three different drive modes, it offers confident control even for beginners. This innovative Honda snowplow is for people who spend a lot of time in areas where snowfall is commonplace.

This HONDA HSM1390iZE snowplow features a unique hour meter function, which uses

intelligent self-diagnostics to tell you when the next service is due and when routine maintenance is due.

TECHNICAL CHARACTERISTICS HONDA HSM1390iZE 8,7KW

Net power: 8.7KW

Fuel: Gasoline/Electric

Engine: Honda iGX390, 4 stroke

Starting System (AMP): Manual recoil starter

Speed: Minimum 0-1.4 Km/h / Maximum 1.4-3 Km/h

Speed automatic mode: Minimum 0-1 Km/h / Maximum 1-2.1 Km/h

Working width: 920 mm

Working height: 580 mm

Maximum capacity: 83 t/h

Maximum jet distance: 19 m

Auger height adjustment: Electrical

Jet direction adjustment: 2 stages electric

Steering clutch: Yes

Transmission: Electric motors

Consumption: 2.59 Lt/h

Acoustic power: 105 dB(A)

Length: 1760 mm

Width: 920 mm

Height: 1340 mm

Weight: 250 Kg

Product features:

Fuel: Gasoline

Engine: Honda iGX390, 4 tempi

Engine rpm (rpm): 3600

Ignition: Recoil

Starting system: Manual

Working width (mm): 920

Working height (mm): 580

Capacidad máxima (t/h): 83

Speed (Km/h): Min 0-1.4 / Max 1.4-3

Throwing distance (m): 19

Discharge chute adjustment: 2 power stages
Speed: Auto mode (Km/h): Min 0-1 / Max 1-2.1
Transmission: Electric engines
Clutch of steering: Yes
Screw height adjustment: Electrical
Net power (kW): 8.7
Fuel tank capacity (L): 5.7
Consumption (L/h): 2.59
Running time (h): 2.2
Acoustic power: 105 dB(A)
Length (mm): 1760
Width (mm): 920
Height (mm): 1340
Dry weight (Kg): 250
Traction type: Track laying
Engine manufacturer: Honda
