Product description:

GMP - B3XR-A/ST 7.5kW Three phase

Presenting the GMP - B3XR-A/ST, a cutting-edge 7.5kW three-phase motor that showcases GMP's commitment to innovation and quality. Designed for optimal performance and energy efficiency, this model stands out in various applications, offering durability and reliability. Whether you're looking to upgrade existing equipment or integrate into new projects, the B3XR-A/ST provides consistent power output that you can trust.

Self priming electric pump monobloc execution with multi-blades open impeller, suitable for pumping dirty water, with special impeller and special mechanical seal, Inow wear disk and inspection door. A suitable non return valve is placed inside the pump body to avoid the empty after stopping.

Product features:

Phase: Three phase

Maximum power three phase (KW): 7.5

Voltage (V): 400/690

Height of suction (m): 34

Maximum output capacity (Lt/min): 1450

Diameter (Ø): 3"

Length (mm): 800

Width (mm): 360

Height (mm): 470

Weight (Kg): 104.5
