

DOMETIC VENTILATION GRILL LS 330

Product description:

A specially designed ventilation grill to release heat building up around your fridge. Mounted to outside wall of the vehicle. Suitable for single-door fridge models.

Let the heat out

Specially designed ventilation system for mounting on the outside wall of the vehicle. Built to prevent energy wasting heat accumulation behind the fridge. In addition, they allow easy access for service and maintenance without removing the fridge. The lower ventilation grill leads cold air behind the refrigerator while the upper grill allows hot air to escape. The Dometic ABSFRD-VG-330 is designed for Fiat Bianco single-door models, and can be used for both top and bottom.
