Product description:

HONDA UMK 425 LE

HONDA UMK 425 LE brushcutter with D-handle and practical harness. HONDA UMK 425 LE Brushcutter is designed to be practical yet powerful and reliable, ensuring constant power and torque even under demanding conditions. HONDA UMK 425 LE brushcutter can do whatever job you expect. There are no areas that an intricate undergrowth can hide. With the extremely robust and reliable 4-stroke garden brushcutter HONDA UMK 425 LE, you can go where no other brushcutter can go. They are driven by a unique six-spline shaft (unlike a traditional splined key design) that provides greater strength and better torque and power delivery to the work area.

A brief overview of Honda products

Right from start, HONDA UMK 425 LE brushcutter is extremely handy. They can handle any type of job, no matter how long or demanding, and with the choice of two powerful 4-stroke engines, they are ready for any challenge.

Handlebar grip

These brushcutters come standard with a comfortable harness, a nylon head for beat-and-go & a heavy-duty three-point blade. Adjustable handlebar provides better & safer grip when mowing unwanted vegetation.

Ring handle

The ring handle brushcutters come standard with comfortable harness, a nylon head for swing & go & a heavy-duty 3-point blade. They are perfectly balanced and provide sensitive control when pruning or edging.

Curved shaft brushcutter

HONDA UMK 425 LE is equipped with the nylon head beat & go. The extremely low weight & balanced proportions make it easy to control unit while you work, so it will be much easier to reach even the most difficult places.
