

TELECO TELAIR ACTIVSAT 53SQ Satellite antenna portable square automatic LNB single

Product price:

1.055,00 € tax excluded

Product description:

TELECO TELAIR ACTIVSAT 53SQ

TELECO TELAIR ACTIVSAT 53SQ is a fully automatic portable satellite antenna. With TELECO TELAIR ACTIVSAT 53SQ you can park your caravan under the shade of trees and easily place the automatic ACTIVSAT system on the adjacent lawn.

TELECO TELAIR ACTIVSAT 53SQ simply open the tripod, mount the motor unit on its top, insert the satellite antenna and connect the cable to the vehicle's external socket. The installation is really intuitive, quick and simple and does not require additional tools.

The antenna will point the satellite in a few seconds, you can adjust the satellite antenna either via Bluetooth using your smartphone or by simply pressing a button in the control unit inside the caravan.

The TELECO TELAIR ACTIVSAT 53SQ antenna gives you the possibility to enter the quick search mode, in this mode the dish limits the search to only 120°, and besides being much faster, it saves 70% of battery power. To use this convenient mode you need to point the dish in the SOUTH direction.

If you are not able to find the SOUTH direction, you can deactivate the Quick Search and the System will perform a full 360° Total Search.

Each time ACTIVSAT points at a satellite, this position is stored in the system memory so the next search will be much faster.

If someone cuts the cable, a very loud acoustic signal is emitted and an external light can be automatically switched on.

For safety reasons TELECO TELAIR ACTIVSAT 53SQ is closely connected to its internal control unit via the Serial Number. All Serial Numbers are registered in a TELECO Data Base and if someone steals or disconnects the outdoor unit without authorization, he will not be able to have any control unit as a spare part without providing the Serial Number of the outdoor unit and his Name. This makes TELECO TELAIR ACTIVSAT85T TWIN LNB completely unusable.

TECHNICAL CHARACTERISTICS TELECO TELAIR ACTIVSAT 53SQ satellite antenna

Squared flat antenna 53x53 cm

16 stored satellites

High definition blue OLED graphic display

SAT Button / Quick Search Button / Parking Button

Integrated Bluetooth to control the satellite antenna directly from smartphone
