

TELECO TELAIR Internet Sat 85 Automatic satellite antenna 85 cm

Product description:

FlatSat Easy S

Automatic HD satellite antenna with wall control panel

The FlatSat Easy is basically the same as the FlatSat Classic S. The Easy models, on the other hand, have a slightly larger dish and the LNB arm has different aesthetic finishes.

Automatic HD satellite antenna with wall control panel and 10 satellites in memory. It can be combined with any receiver or satellite TV such as: TNT SAT, FRANSAT, SKY, TivùSat, CANAL DIGITAAL, TV VLAANDEREN, CANAL SATELLITE, BIS TELEVISION, TELESAT, etc.

New intelligent panel:

By default the following satellites are stored in memory: Astra 19, Hot Bird, Astra 23, Astra 4, Eutelsat 5W, Astra 28, Thor, Hispasat, Turksat, Internet

Control with only two keys.

OLED graphic display to show all the operations performed by the antenna.

An anthracite-coloured frame completes the panel and can be easily replaced with other frames in a different colour from the Berker line.

Safety system with automatic closing of the antenna when the vehicle is started.

HUB - CIBUS

The Teleco HUB and CI-BUS interfaces are optional not included. To use these functions, the vehicle must be equipped with a Teleco HUB control unit or CI-BUS system.

FlatSat Easy S - SMART

FLATSAT CLASSIC (SMART) consists of:

1 External Satellite Antenna

1 DVB-S2 control unit complete with cables

1 Intelligent panel

Indicative images and technical data.

Product features:

Diameter (Ø): 85 cm

Length closed (mm): 1100

Width closed (mm): 850

Height closed (mm): 210

Type of coupling head: Roof

Product type: Satellite and Internet Antenna

Antenna orientation: Automatic

Satellites Number: 10

Weight (Kg): 15
