Product description:

TELECO VOYAGER DIGIMATIC50 SATELLITE ANTENNA 50cm

The TELECO Voyager Digimatic50 with Digital Pointer is an advanced manual satellite antenna designed to simplify satellite alignment thanks to innovative technologies such as the DSF90E/HD digital pointer and electronic inclinometer. This TELECO Voyager Digimatic50 model solves the challenges associated with digital signal latency, ensuring precision and speed during dish positioning.

Thanks to the DSF90E/HD, the TELECO Voyager Digimatic50 Satellite Antenna provides instant feedback on signal strength and elevation, making the alignment process simple and intuitive, even for less experienced users. The electronic inclinometer compensates for any vehicle inclines, always providing the correct angle for optimal alignment.

Key Features of the TELECO Voyager Digimatic50 with Digital Pointer:

DSF90E/HD Digital Pointer: Enables fast and precise alignment with visual and audio satellite indications.

50cm Dish: Ensures excellent signal reception even in less favorable conditions.

Electronic Inclinometer: Calculates the dish's real elevation, regardless of the vehicle's leveling.

Compact and Robust Design: Perfect for installation on campers or recreational vehicles.

How the TELECO Voyager Digimatic50 Satellite Antenna:

Select the desired satellite (e.g., ASTRA 23) using the digital pointer.

Adjust the dish's elevation using the values provided by the electronic meter.

Rotate the dish southward until you hear the continuous "BEEP" and verify the SAT OK LED.

Optimize the alignment by following the LEVEL indicator to achieve the maximum signal strength.

Kit Contents of the TELECO Voyager Digimatic:

Pre-assembled satellite antenna with tilting pole.

Universal LNB and connection cables.

DSF90E/HD digital pointer for optimal precision.

Detailed manual for easy installation.

50cm satellite dish.

The TELECO Voyager Digimatic50 with Digital Pointer is the perfect solution for those seeking a reliable, compact, and user-friendly satellite antenna. With advanced technologies like the digital pointer and electronic inclinometer, optimal signal reception can be achieved in just a few simple steps, free from delays or alignment challenges.

Optimized for excellent performance on the go, the TELECO Voyager Digimatic50 with Digital Pointer is an essential product for campers and demanding travelers.

Product features:

Diameter (Ø): 50 cm

Lenght closed (mm): 650

Width closed (mm): 500

Height closed (mm): 170

Length (mm): 400

Width (mm): 500

Height (mm): 500

Type of coupling head: Wall bracket

Product type: Satellite Antenna

Antenna orientation: Manual

Weight (Kg): 6.8
