Product description:

TELECO VOYAGER DIGIMATIC85 SATELLITE ANTENNA 85cm

TELECO VOYAGER DIGIMATIC85 is a satellite antenna expressly designed and manufactured by TELECO to allow the user to manually point to the desired satellite with a few simple and fast maneuvers.

Currently, the main difficulty in pointing to a satellite that transmits TV signals in digital mode is linked to the fact that digital signals are displayed on the TV screen with a certain delay in addition to the latency of LCD TVs and therefore the user is forced to make the pointing with very slow movements in order not to risk passing in front of the satellite without noticing it.

The TELECO VOYAGER DIGIMATIC85 with DSF90E/HD electronic elevation meter is the solution to this problem. The electronic elevation meter indicates both elevation and signal strength. This allows you to quickly point this manual dish system to the desired satellite without the disadvantages of signal delay.

The TELECO VOYAGER DIGIMATIC85 has the transmission capabilities managed by the geostationary satellite of reference placed at 13 degrees East which ensures a wide coverage originating in central Europe.

TELECO VOYAGER DIGIMATIC85 has a directly proportional correlation between its diameter and the signal strength at the edges of the "footprint".

Tendonally it is not recommended to install an antenna of excessively large diameter on a motorhome, which is why the standard is around 80 cm in diameter.

The coverage thanks to the TELECO VOYAGER DIGIMATIC85 is very wide starting from the center of Europe. The signal degrades away from the center of Europe. As you can see in the map with satellite antenna TELECO VOYAGER DIGIMATIC85 you can receive the signal of HotBird (which transmits SKY and TIVUSAT) in virtually all of Europe, the north of Morocco,

Algeria, Tunisia, giving you satellite coverage in any place you decide to stay.

TECHNICAL FEATURES TELECO VOYAGER DIGIMATIC85

Type of orientation: Manual
Type of attachment: Wall bracket
Antenna diameter: 850 mm
Bracket size: 33 cm, 52 cm
Pointing kit: DSF90E/HD
Length: 850 mm
Width: 400 mm
Height: 850 mm
Weight: 11.4 kg

Looking for a product with different features? Here you can find the whole range of TELECO and other specialized brands.

Product features:

Diameter (Ø): 85 cm
Lenght closed (mm): 1060
Width closed (mm): 850
Height closed (mm): 180
Length (mm): 400
Width (mm): 850
Height (mm): 850
Type of coupling head: Wall bracket
Product type: Satellite Antenna
Antenna orientation: Manual
Satellites Number: 8
Weight (Kg): 11.40
