

FISCHER PANDA 24x Single-phase Sea Generating Set 24 kVA 20.4 kW

Product price:

19.403,00 € tax excluded

Product description:

MARINE FISCHER PANDA 24X SUPER-SILENCED 24 KVA GENERATOR

Generator for boats Fischer Panda 24x single-phase 24 KVA with 3000 rpm motor. The Fischer Panda 24x marine generator is designed with a soundproofing cabin that makes it supersilent. The Fischer Panda 24x marine generator is built with a Kubota diesel-powered engine. The Fischer Panda 24x marine generator alternator is 2-pole with H insulation class. With its compact size and low weight, the Fischer Panda 24x marine generator is also suitable for installation on small boats.

Technical features of the Fischer Panda 24x:

Phase Type: Single-phase

Maximum Output: 20.4 kW

Continuous Output: 18.3 kW

Maximum Output: 24 kVA

Continuous Output: 21.6 kVA

Frequency: 50 Hz

Voltage: 230 V

Engine rpm: 3000 rpm

Displacement: 1498 cc.

Cooling: Water

Sound Cover Type: GFK (Glass fibre reinforced polyester)

Sound pressure: 55 dB(A) at 7 m

xControl

This digital control replaces the current VCS control and P6+ panel of Fischer Panda asynchronous generators. These generators are world-renowned and have been in operation for

twenty-five years.

In the age of modern data and energy communication systems, it is becoming increasingly important for the generator to be able to integrate with existing control and regulation systems. With the "xControl", Fischer Panda offers an extremely powerful and easy-to-use generator control system:

- Plug & Play - reducing installation effort
- Modular system for easy expansion
- Recording and display of operating data - complete control at all times
- Full event recording - long-term service
- Digital panel - easy to use and multilingual
- Communication interface - integration into other control systems
- Self-test of all functions - safe and reliable system
- Automatic start - remote control of the generator
- Rapid control - stable energy supply

The "xControl" consists of three main components which are connected together using quick-connect plugs. These are the digital panel, a connection box on the generator and the actual control unit. The intelligent communication of these three system components ensures reliable generator operation. The management system "xControl" offers an easy to use system, a modern and simple system architecture and a modern communication interface.

xControl - Connection Box - Generator (CB-G)

- Easy "Plug & Play" installation with panel
- Connections for external components
- Splash water protection for connections
- Digital display
- Easy to use menu structure
- Displays current, voltage, frequency and other performance data
- Multilingual
- Diagnostic and service modes
- Possibility of applications on more than one panel

If you are looking for a marine generator set like the Fischer Panda 24x but with different technical features then you can browse the entire catalogue of marine generators.

Product features:

Phase: Single phase

Maximum power single phase (KW): 20.4

Continuous power single phase (KW): 18.3
Maximum power single phase (KVA): 24
Continuous power single phase (KVA): 20.4
Fuel: Diesel
Frequency (Hz): 50
Voltage (V): 230
Engine: Kubota V1505
Engine rpm (rpm): 3000
Speed governor: Electronic
Starting system: Electric
Engine capacity (cm³): 1498
Number cylinders: 4
Cooling: Water
Poles: 2
Motor insulation class: H
Length (mm): 1010
Width (mm): 515
Height (mm): 674
Dry weight (Kg): 355
Silenced: Yes
Super silenced: Yes
Product type: Generator
Voltage regulator: Capacitor
Engine manufacturer: Kubota
