MARINE GENERATOR FISCHER PANDA 30-4PMS SUPERSILENCED 29.4 KVA

Generator for boats Fischer Panda 30-4PMS three-phase 29.4 KVA with 1500 rpm motor. The Fischer Panda 30-4PMS three-phase marine generator is designed with a soundproof cabin that makes it super-silent. The Fischer Panda 30-4PMS three-phase generator is built with a diesel-powered Mitsubishi engine. The Fischer Panda 30-4PMS three-phase generator alternator is 4-pole with H insulation class. Thanks to its compactness, size and low weight, the Fischer Panda 30-4PMS three-phase marine generator is also suitable to be mounted on boats with little space available.

Based on the robust and compact Fischer Panda 30-4PMS generator set, these heavy duty (HD) versions run at 1500 rpm and 50 Hz.

The Fischer Panda 30-4PMS marine generator is enclosed in a soundproofed capsule which significantly reduces noise emissions and makes this product super-silent.

The generators are heavier than standard PMS generators. They use a heavy-duty diesel engine and, because they run at 1500 rpm, have a 4-wire coil, which also means that the alternator has a heavier 4-pole construction.

The heavy-duty construction and low rpm results in a durable and quiet generator set.
