

# Inverter NDS SP600 Pure Sinusoidal Wave 600 W 24V

**Miglior prezzo:**

**163,11 € Iva escl.**

**Codice Prodotto:**

Reference: 95298

EAN13: -

UPC: -

**Descrizione:**

---

## **NDS SP600 inverter 24V**

The smart-in inverter range guarantees the best performance in terms of safety, efficiency and reliability.

NDS SP600 belongs to the Pure series, with pure sine wave type.

### **Features and functions**

- High frequency system
- High efficiency up to 93%
- Low self-consumption
- Input with professional connectors
- Predisposition for remote control On/Off
- Fully insulated input and output

### **Protections**

- Soft Start
- Overload and short circuit protection
- Low battery alarm
- Reverse polarity protection
- Overtemperature protection

### **Distinctive elements**

Totally isolated input and output, to prevent any anomaly in the connected output equipment from damaging the input equipment or vice versa, allowing a high degree of safety.

Professional connectors directly integrated in the board, allowing a substantial reduction of the voltage drop on the connection between the device and the battery, improving its performance and, at the same power consumption of a 230 V consumer, there is a lower battery consumption than the classic inverters.

Images and technical data are not binding.

## **Caratteristiche Tecniche:**

Frequency (Hz): 50 / 60

Output voltage (V): 230

Length (mm): 245

Width (mm): 140

Height (mm): 71

Input voltage (V): 24

Kind of wave: Pure Sinusoidal

Continuous power (W): 600
