## PART NUMBER

0541-1253-01 Front (Engine End) Exhaust Outlet Kit

0541-1253-02 Front (Engine End) Exhaust Outlet Kit

0541-1282 Front (Engine End) Exhaust Outlet Kit

0541-1472-02 Front (Engine End) Exhaust Outlet Kit

## Spec Sheet Description

Front (engine end) exit (wet) exhaust tube kit.

## Description

This kit relocates the wet exhaust outlet from the rear (generator end) to the front (engine end) for gensets equipped with sound shields.

## Benefits

Generator set installations requiring moving the location of the exhaust connection from the rear (generator end) to the front (engine end) can be accommodated by using this kit.

## Installation

Requires removal of rear out exhaust tube.

## Compatibility
